SELECT AIRPORT

This dialog allows you to select a specific airport.

Use the button Reset All to clear your search and filter input that all airports are listed again.

For your information the total count of all airports is displayed at the bottom.

1 Note: The total count will only include airports that are actually listed based on selected **filter options**, but also active airport/runway restrictions in the **Settings** module.

Search

You can search for an airport by entering the ICAO code, airport name or city.
