### **PLEASE WAIT**

FS-FlightControl: Select Color	? ×
	lightness
Hue: 120 Red: 0 Sat.: 100 Green: 100 Lum.: 20 Blue: 0	Opacity: 160

The colors of the user interface of FS-FlightControl can be very much customized. This dialog helps you to select the desired color.

### **Predefined Colors**

First there are 48 predefined colors you can choose one with just one click.

## **Color Wheel**

On the right side you can select from the full range of colors by simply clicking inside the color wheel.

# Lightness

Use this slider on the right side to adjust the color lightness.

### Opacity

With this slider you can adjust the opacity of the color and also input it manually in a range from to 255.

### **Color Sample**

This color sample shows you on the right side the selected color itself and next to it on the left side the selected color with applied opacity setting.

#### **Manual Input**

<u>H</u> ue:	120	<u>R</u> ed:	0
<u>S</u> at.:	100	<u>G</u> reen:	100
<u>L</u> um.:	20	<u>B</u> lue:	0

You have also the option to enter the color manually either by entering its HSL (hue, saturation and luminosity) or RGB (red, green and blue) values.

### **Color Picker**

Furthermore, this color picker allows you to choose any color currently visible on your screen.

Just click on the picker, keep the mouse button pressed and move the mouse around to the point where you would like to get the color from.

Mote: The color picker cannot be used from the Android/iOS app.
