INFO

Directly send us a message also include log files in case of program issues.

You can also deactivate your license here if you want to use it on another computer.

Contact Form

You have a question or miss a special feature?

We are looking forward to your comments and ideas!

Subject*:

First Name: Last Name:

E-mail*: Phone:

Message*: (fields marked with * are required)

Include Logfiles

If you have any questions regarding the program or even a new idea, please do not hesitate to contact us!

You can directly use this contact form integrated into FS-FlightControl itself.

In case you should have found an issue you want to report please make sure to keep the checkbox **Include Logfiles** checked. This way we receive your log data together with your message and can better analyze a possible problem.

License Information

This is a home license for non-commercial use only.

Program licensed to: Andreas Breitschopp

Below the contact form some information about your license is displayed.

You can use the button **Deactivate License on this Computer** to move your license to another computer. In this case please deactivate your license on the old computer first before activating it on the new one again.

 Note: We also recommend to deactivate the license in advance if you plan to completely reinstall Windows on the same computer.

At the bottom some copyright notes are displayed.

In the bottom right you will additionally find the link [Show Change Log](#) that shows the program change log as well as [Show Hardware Key](#) that displays information regarding hardware binding.

Change Log

The screenshot shows a window titled "FS-FlightControl: Change Log". The window content is as follows:

Version 1.4.13, released on 2020-03-08:

- General: Improved list box controls now showing selected items that are not focused at the moment in correct color.
- General: Fixed exception on program start in case of missing Windows Updates for required security protocol.
- General: Fixed simulator connection no longer automatically started after database/terrain build or loading if connection was manually disabled beforehand.
- General: Fixed minor rendering differences of link labels across the program.
- General: Fixed some error/info message box wordings.
- Map: Added option to display custom holding patterns.
- Map: Added height map color legend.
- Map: Improved map background rendering performance, especially for height map.
- Map: Improved action buttons layout to use less space and allow slightly less tall window size.
- Map: Changed default color of height map info and copy right note.
- Map: Fixed showing/hiding action buttons based on window size now immediate for all buttons.
- Map: Fixed zoom buttons state when started with minimum or maximum zoom.
- Settings: Added aircraft position airport/runway restriction options.
- Settings: Added aircraft man color options for taxi center line and holding patterns.

At the bottom of the window are two buttons: "Newer" on the left and "Older" on the right.

Here the change log of FS-FlightControl is displayed.

This way you can have a look on the change log at any time also after you have applied an update.

Use the button **Older** to see even older entries and **Newer** to get back to the newer ones.

Hardware Key

Please send this key to the FS-FlightControl support if you are requested to do so.
