PRODUCT SETUP

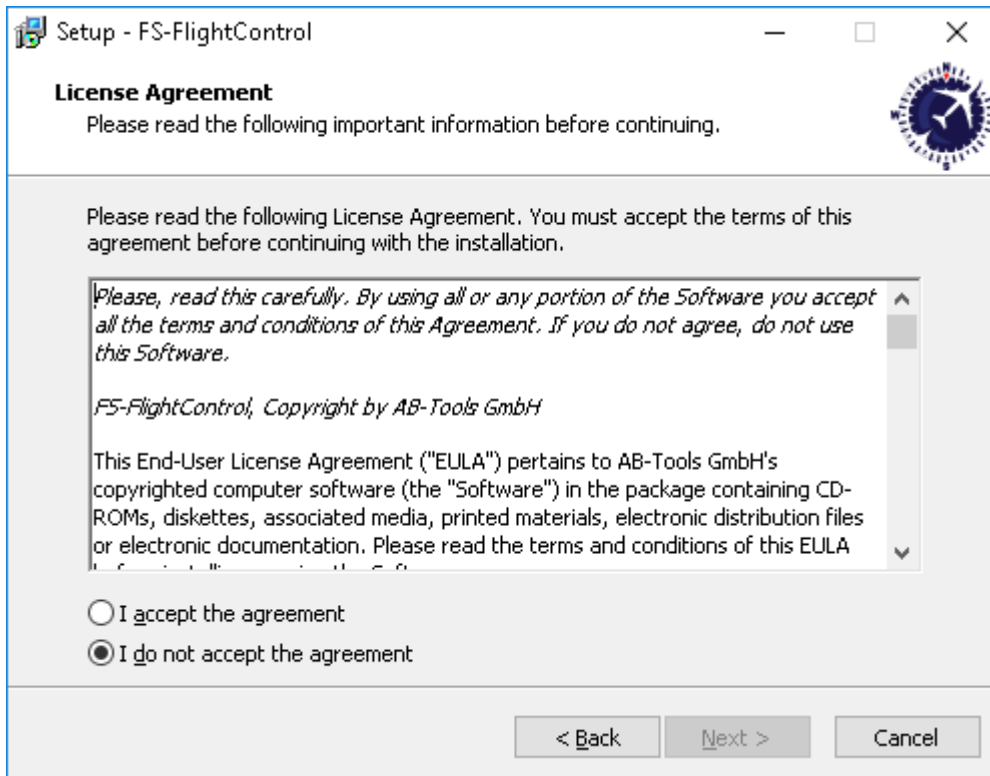

FS-FlightControl includes an easy to use setup system that will guide you through the product installation allowing you to change installation folder and other settings.

Welcome Screen

After you have selected the desired setup language this welcome screen is displayed.

License Agreement

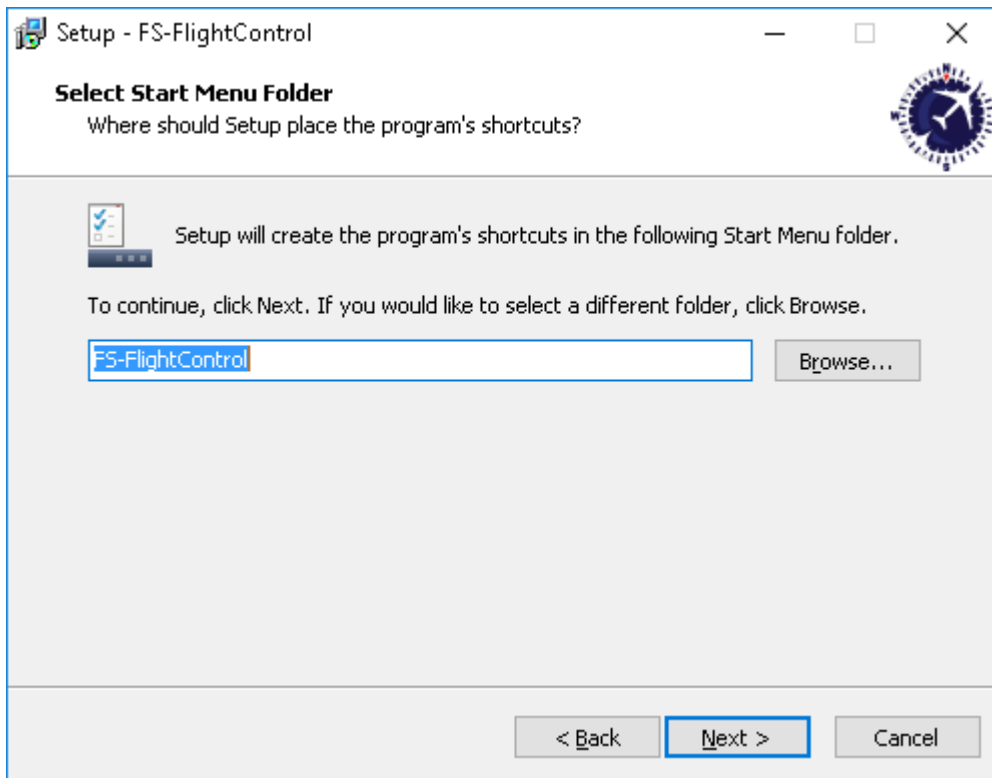

First you need to accept the license agreement by selecting **I accept the agreement** to proceed with the installation.

Select Destination Location

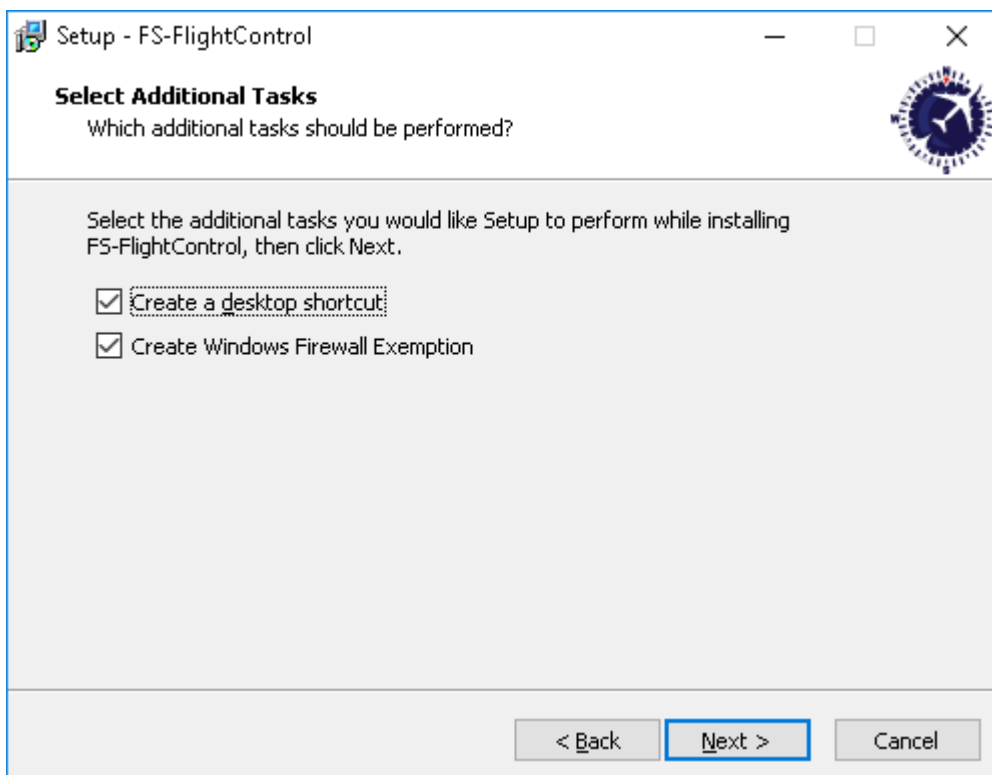

In this screen you can change the destination location of the installation.

Select Start Menu Folder

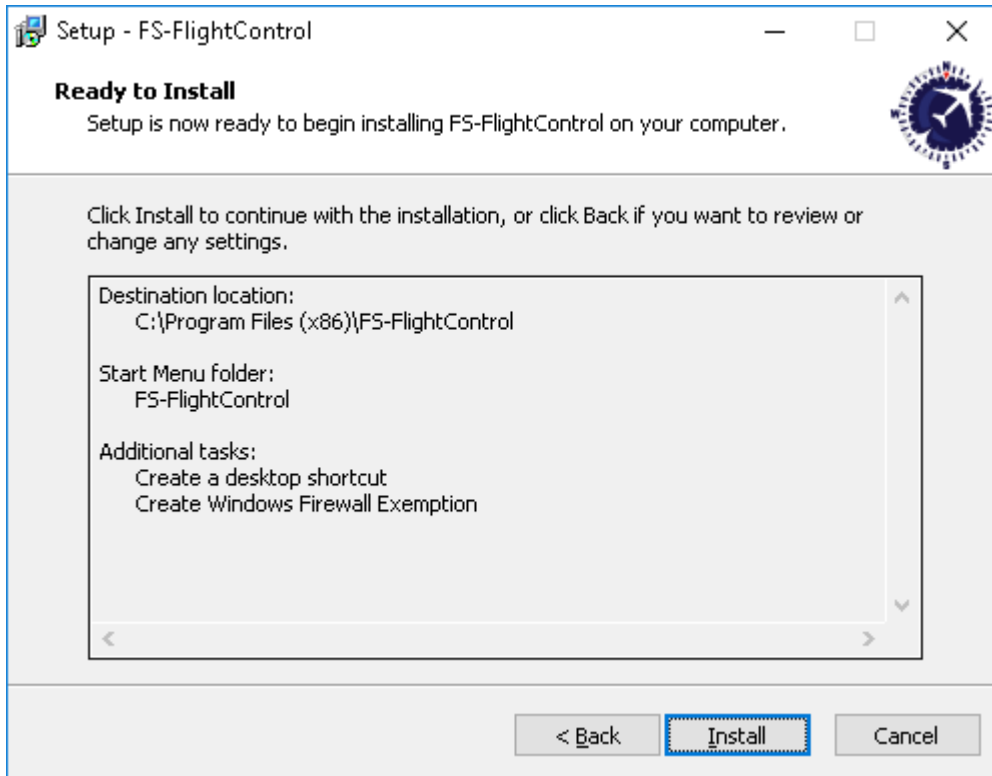

Here you can select where the product shortcut should be placed in the start menu.

Select Additional Tasks

In this step you can choose if a Desktop icon should be created for FS-FlightControl.

Ready to Install

Now everything is ready to install.

Please click on the button `Install` to start the product installation.

Installing

While the product files are copied this progress screen is displayed.

SimConnect End User License Agreement

If you do not have any SimConnect client libraries installed yet the setup will automatically install compatible SimConnect libraries.

In this case you get this SimConnect end user license agreement (EULA) displayed. Please Accept it to continue with the installation.

Finish Screen

Now the FS-FlightControl installation has been finished!

If you keep the check box Launch FS-FlightControl selected the product will be started directly after you clicked on the button Finish.
