<i>Connection Status</i>	1
<i>Window Action Icons</i>	1

TITLE BAR

In the title bar of FS-FlightControl much information is displayed that is explained in the following.

Additionally some actions can be triggered from the title bar as well.

Product Name and Version

A dark blue rectangular box containing the text "FS-FlightControl v1.412" in white font.

First the product name and the current product version is displayed.

License Status

A dark blue rectangular box containing the text "Home License for Andreas Breitschopp" in white font.

Next on the left side you see your license status.

Loaded Aircraft

A dark blue rectangular box containing the text "Aircraft: Beech Baron 58" in white font.

At first on the right side the name of the currently in flight simulator loaded aircraft is displayed.

Connection Status

A dark blue rectangular box containing the text "Connected to Prepar3D" in green font.

Beside that the current connection status to the flight simulator is shown.

This can be either Connected in green, Connecting... in yellow or Disconnected in red.

If you click on the connection status the connection to flight simulator will be disabled resulting in the text Disabled being displayed in blue. Clicking on it once again will enable the connection again.

Window Action Icons

On the top right you can find several window action icons.

Their functionality is in the display order like this:

- Minimizes the FS-FlightControl window to the task bar.
- Maximizes the FS-FlightControl window. If it was already maximized clicking again on this icon will revert it to normal window state. Double-clicking on the title bar has the same effect than clicking on this icon.
- Detaches the currently loaded FS-FlightControl module to a separate window.
- Opens this online manual.
- Closes the FS-FlightControl program.
